# Buick LaCrosse eAssist 4 Door Sedan 2018 - 2019

# First Responder Rescue Sheet

The Buick LaCrosse with eAssist technology incorporates a low voltage battery that must be disconnected prior to occupant extrication.

## To Disable the Vehicle:

1. Turn the ignition to "OFF" and remove the keys from the vehicle.
2. Double cut all low voltage cables marked by the yellow tape located near the fuse block on the left side of the engine compartment.

Do **NOT** cut any Orange colored High Voltage Cables.

**EMERGENCY PERSONNEL:**  
To help avoid personal injury in an emergency,  
• Turn ignition to "Off".  
• Cut any battery cables or wires marked by yellow tape (see diagram).

**PERSONNEL AFFECTÉ AUX URGENCES :**  
Afin d'éviter toute lésion personnelle, effectuer ce qui suit en cas d'urgence :  
• Mettre la clé de contact sur « Off » (arrêt).  
• Couper tous les câbles ou fils de batterie marqués par du ruban jaune (voir diagramme).

紧急救援人员：  
为避免在紧急情况下受到人身伤害，请  
• 将点火装置设为“关”  
• 切割用黄胶带标记的蓄电池电缆或接线（见图）。

## Air Bag Caution

After disabling 12 volt power, wait at least 10 seconds to allow any un-deployed airbag reserve energy to dissipate.

## In Case of Fire

A battery on fire will not explode. If battery cells reach high enough temperature, they vent and release electrolyte. Battery electrolyte is flammable. Use copious amounts of water to cool the battery to extinguish the fire. Do not use an ABC dry chemical extinguisher because it will not extinguish a battery fire.

## In Case of Water Immersion

The high voltage battery is isolated from the vehicle chassis. If the vehicle is immersed in water, you will not be electrocuted by touching the vehicle.
